# PRODUCT CATALOGUE

Professional cleaning products

Welcome to the world of the **Clinex brand.**

We are a **Polish company** with over 30 years of tradition, producing professional Clinex chemicals dedicated to the broadly understood cleaning industry. For years, the brand has been setting standards in the industry, acting both as a guardian and a partner to our customers. Our products are the result of continuous work aimed at delivering solutions that meet the real needs of users.

Our slogan **"We care about cleanliness professionally"** is not an empty phrase, but the foundation of every decision and innovation. At Clinex, we believe that **professionalism** is not only about **effectiveness, but also about safety, environmental responsibility, and ethics.** That is why our corporate social responsibility (CSR) activities are inseparably linked with every aspect of our operations—from product formulas, through production processes, to supporting local communities and environmental initiatives. Confirmation of our environmental commitment is the ISO 14001 certification of our environmental management system, covering the entire production process.

Discover with us a world where cleanliness goes hand in hand with care for the future of our planet.

Sincerely yours,

Jarosław Nowakowski
General Director Amtra Group

## What is the strength of the brand?

### COMMON SENSE

**QUALITY-PRICE RATIO**

We are a smart choice. We take a practical approach to our business because we know and believe that our customers also conduct their activities in this way

### SAFETY

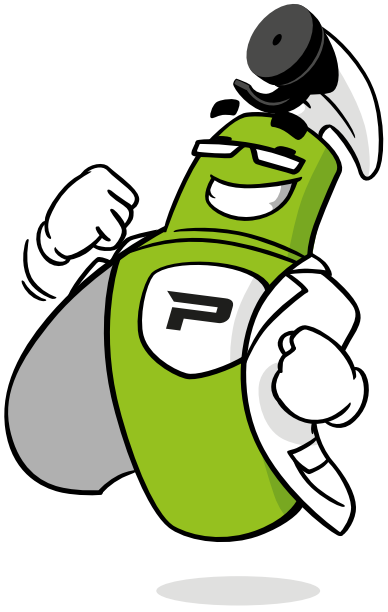

**FORMULATIONS + ECOLOGY**

The strength of our brand lies primarily in caring for product users, but also for the environment and the surfaces being cleaned.

### RELATIONSHIPS

**CUSTOMER SERVICE + TRAINING**

We are a Polish brand, always there, always available, always within reach. We prioritize close relationships and individual support.

Clinex® professional

# We care about cleanliness professionally

## The core pillars of the Clinex brand message:

### Supporting professionalism in HoReCa

For years, we have kept hospitality and foodservice spotless — from professional kitchens to hotel guest rooms.

### Understanding the needs of institutions and businesses

We deliver safe, effective solutions for schools, offices, public administration buildings, and medical facilities.

### Introducing the technologies of tomorrow

Our probiotic products work around the clock, providing continuous 24/7 protection, supporting a healthy microbiome, and maintaining long-lasting cleanliness.

### Optimising the economics of cleaning

Clinex concentrated formulas boost efficiency, saving time, resources, and budget where it matters most.

### Educating and empowering cleaning professionals

We train and advise, so that every cleaning routine is effective, safe, and sustainable.

### A professional perspective — on people and the environment

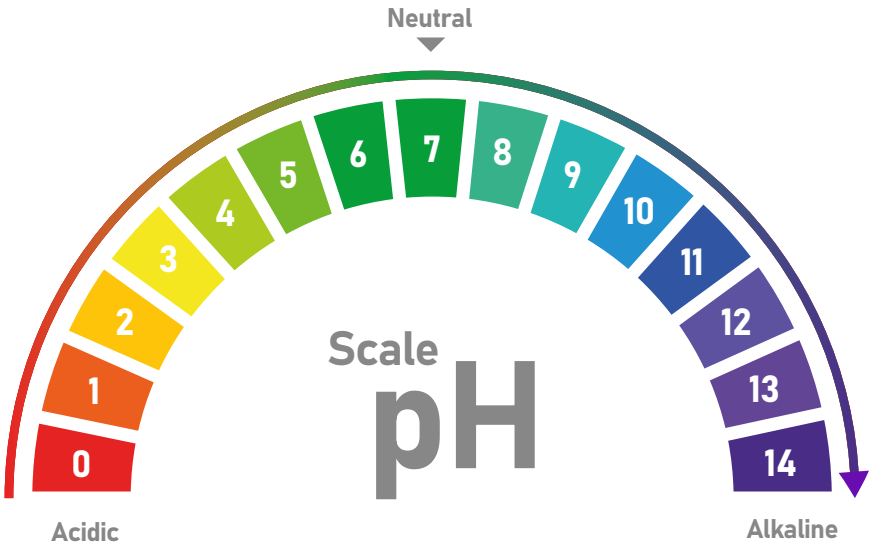

We create nature-friendly products that bring together cleanliness, human health, and care for our planet.

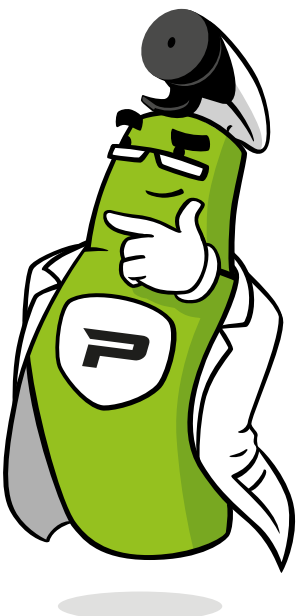

# Table of Contents

In our commitment to maintaining a high standard in all our activities, we have divided the assortment of our products into ten groups according to their intended use. To facilitate their presentation, each group has been designated a different colour.

## Ecolabel program

**The Ecolabel program** aims to **create sustainable solutions** based on product life cycle assessment and a common goal of **reducing the impact of production or consumption activities on the environment.** The product must meet rigorous requirements at all stages of its life cycle.

**Clinex's eco-brand strategy** encompasses not only product and packaging-related actions but also production, sales and communication associated with it. The Ecolabel program was created to define truly ecological products.

# Green Floor

**Ecological floor cleaner**

Ecological, concentrated, very effective and efficient preparation for everyday care of any waterproof flooring: ceramic tiles, PVC, linoleum, marble, rubber, clinker, terracotta, gres, panels and varnished wood. Safe for the cleaned surfaces. Evaporates fast, does not leave plumes or stains. Delays the process of dirt buildup. Gives the surface a delicate shine. Correct dosage and the lowest recommended temperature result in less water and energy consumption and less water pollution.

**Application:**
For daily cleaning and maintenance of all types of water-resistant floors.

| KTM | | | |
|---|---|---|---|
| 77-909 | 1 L | 6 | 456 |
| 77-999 | 5 L | 1 | 96 |

pH ~8

# Green Glass

**Ecological glass cleaner**

Reliable, ecological foam cleaner for cleaning windows, mirrors, crystal, enamel and laminated surfaces, as well as stainless steel elements. The high quality of the product guarantees a shiny surface without streaks and the effect of dried water droplets. The product enriched with antistatic agents protects the surface from quick re-soiling. Proper dosing and the lowest recommended temperature promote reduced water and energy consumption as well as less water pollution.

**Application:**
For cleaning glass, laminated, enamelled and stainless steel surfaces.

| KTM | | | |
|---|---|---|---|
| 77-912 | 1 L | 6 | 456 |
| 77-913 | 5 L | 1 | 96 |

# Green Multi

**Multi-purpose ecological cleaner**

An ecological, ready-to-use cleaner for removing all types of dirt from water-resistant surfaces. The cleaner dissolves all kinds of dirt, including oil and grease, without leaving streaks or stains on the cleaned surfaces. It does not require wiping to dry, works quickly and effectively and does not damage the cleaned surfaces. It leaves a pleasant scent in the cleaned areas. Correct dosage and the lowest recommended temperature result in less water and energy consumption and less water pollution.

**Application:**
For cleaning water-resistant above-floor surfaces.

| KTM | | | |
|---|---|---|---|
| 77-915 | 1 L | 6 | 456 |
| 77-616 | 5 L | 1 | 96 |

pH ~8

# Green Sanit

**Ecological sanitary rooms cleaner**

Ecological, gentle cleaning solution based on citric acid for daily cleaning of sanitary facilities. Safe for all types of surfaces, including enameled, acrylic, chrome-plated, nickel plated and plastic components. Quickly and reliably removes all dirt from sanitary facilities, deposits, rust deposits and soap residues. Dries fast and thanks to the addition of polymers, repels dirt from cleaned surfaces. Correct dosage and the lowest recommended temperature result in less water and energy consumption and less water pollution.

**Application:**
Intended for washing bathtubs, shower trays, shower cubicles, bathroom fittings, stainless steel components, bowl, urinals, washbasins, glaze, ceramic tiles, etc.

# Floral

BESTSELLER

### General purpose cleaner for floors

Clinex Floral is a universal, concentrated floor cleaning liquid available in four fresh fragrances. They evaporate quickly, leaving no streaks or stains. They protect the surface and delay the process of dirt accumulation. They give cleaned surfaces a gentle shine and leave a long-lasting, pleasant fragrance. Regular use of the product makes the next cleaning process easier.

**Application:**
For daily care and cleaning of all types of water--resistant floors.

| Floral Ocean KTM | | | |
|---|---|---|---|
| 77-890 | 1 L | 6 | 456 |

pH ~10

# Wood&Panel

### Cleaning liquid for laminate floors and varnished wood

Concentrated agent for cleaning and caring for protected wooden and wood-like floors. It dries quickly, without leaving any streaks or stains on the cleaned surface. Modern technology ensures that cleaned surfaces are protected from dirt buildup, making it much easier to maintain their cleanliness. It gives cleaned surfaces a gentle shine, enhancing the natural colour of the floor. Leaves a pleasant scent.

**Application:**
For daily cleaning of laminate and varnished wooden floors.

| KTM | | | |
|---|---|---|---|
| 77-689 | 1 L | 6 | 456 |
| 77-690 | 5 L | 1 | 96 |

pH ~10

# Wood&Shine

### Self-shining and conditioning emulsion

An emulsion for shining and caring for laminated wooden floors and lacquered ones. The formula of the product is based on special polymer compounds, which are water-soluble. The coating created on their basis produces a glossy effect on the surface. Additionally, it fills in any micro-damages. It shines and refreshes the floor without the need for polishing. The emulsion can be used as a concentrate on a clean, degreased surface or as a solution for floor care.

**Application:**
For shining and caring for laminated wooden floors and lacquered ones.

| KTM | | | |
|---|---|---|---|
| 77-930 | 1 L | 6 | 456 |
| 77-931 | 5 L | 1 | 96 |

pH ~8

# Glazur

### Cleaning liquid for glazed floors

Concentrated liquid for cleaning and caring for glazed floors. The modern formula of the product facilitates the daily care process. The polymer content reduces the possibility of re-soiling and enhances the natural colour of the surface. It dries quickly, leaving no streaks or stains. It has a pleasant scent.

**Application:**
For cleaning glazed floors, unglazed ceramic tiles and glazed ceramic tiles.

| KTM | | | |
|---|---|---|---|
| 77-162 | 1 L | 6 | 456 |
| 77-163 | 5 L | 1 | 96 |

pH ~10

Detailed instructions on how to use Clinex products are available on the label as well as on the website **clinex.co**

## Floors - manual cleaning

# Floral Forte

**Floor cleaner**

Highly concentrated, alkaline preparation intended for cleaning all types of water-resistant surfaces. It is suitable for the routine cleaning and the removal of stubborn dirt. It leaves no streaks on the cleaned surface. The product is intended for manual cleaning.

**Application:**
For thorough cleaning of all water-resistant surfaces.

| KTM | | | | pH ~13 |
|---|---|---|---|---|
| 77-705 | 1 L | 6 | 456 | |
| 77-706 | 5 L | 1 | 96 | |

# Lastrico

**Terrazzo cleaning liquid**

Preparation for thorough cleaning of concrete floors. Particularly recommended for cleaning heavily soiled stone-concrete floors such as terrazzo and for cleaning ceramics from cement-gypsum dirt. It works perfectly for cleaning tombstone slabs.

**Application:**
Professional preparation for deep cleaning of hard floors, such as terrazzo, ceramics and other surfaces resistant to acids.

**Very strong effect**

| KTM | | | | pH ~1 |
|---|---|---|---|---|
| 77-153 | 1 L | 6 | 456 | |
| 77-154 | 5 L | 1 | 96 | |

## Floors - machine cleaning

# MaxDirt

**Low-foaming agent for removing greasy dirt**

FRAGRANCEFREE-FORMULA

Concentrated preparation suitable for cleaning floors, walls and other washable surfaces. Due to its low foaming properties, the product can be used for both manual and machine washing. It does not contain fragrance compositions, making it suitable for use in areas and on surfaces in contact with food.

**Application:**
For cleaning waterproof surfaces in gastronomy and food processing industry, industrial floors in production halls, repair shops and car workshops. It removes all greasy dirt from surfaces such as concrete floors, PVC, natural and artificial stone, tiles, aluminum, stainless steel, powder-coated surfaces, etc. found in industry and gastronomy.

| KTM | | | | pH ~11 |
|---|---|---|---|---|
| 77-650 | 1 L | 6 | 456 | |
| 77-648 | 5 L | 1 | 96 | |

# 4Dirt

**All purpose product for removal of oily stains**

A concentrated preparation suitable for cleaning floors, walls and other washable surfaces. Due to its low foaming properties, the product can be used for both manual and machine washing. The preparation can be used in areas and on surfaces in contact with food. It has a gentle scent.

**Application:**
For cleaning waterproof surfaces in gastronomy and food processing industries, industrial floors in production halls, repair shops and car workshops. It removes all greasy dirt from surfaces such as concrete floors, PVC, natural and artificial stone, tiles, aluminum, stainless steel, powder-coated surfaces, etc.

| KTM | | | | pH ~11 |
|---|---|---|---|---|
| 77-640 | 1 L | 6 | 456 | |
| 77-641 | 5 L | 1 | 96 | |
| 77-642 | 10 L | 1 | 40 | |

# Nano Protect Floral

### Floor cleaning nanofromula

Low-foaming, universal product containing silicon nanoparticles, which protect cleaned surfaces from re-soiling, facilitating the next cleaning process. The modern technology of the product is enriched with a specialized polymer. As a result, the product quickly evaporates from the cleaned surfaces, leaving no streaks or stains. It gives a gentle shine and enhances the natural colour. It contains a long-lasting fragrance composition free of allergens.

**Application:**
For cleaning all types of water-resistant floors.

| KTM | | | | pH ~9 |
|---|---|---|---|---|
| 77-333 | 1 L | 6 | 456 | |
| 77-334 | 5 L | 1 | 96 | |

# M6

### Daily floor cleaner

Low-foaming, universal, alkaline preparation. Effectively removes everyday dirt, leaving a pleasant fragrance. Thanks to the unique formula of the product, a delicate polymer coating is formed on the cleaned surface, nurturing and protecting it from further soiling. Suitable for both manual and machine cleaning.

**Application:**
For cleaning all types of hard, waterproof floors resistant to alkalis: concrete, terracotta, ceramic tiles, clinker, epoxy resin, natural and synthetic stone, etc.

| KTM | | | | pH ~10 |
|---|---|---|---|---|
| 77-094 | 1 L | 6 | 456 | |
| 77-095 | 5 L | 1 | 96 | |

# M3 Acid

### Acidic formula for cleaning of sanitary fixtures

Concentrated, highly acidic preparation for cleaning all waterproof and acid-resistant floors. The product has a high cleaning power. It effectively dissolves limescale, removes dirt and soap residue. Depending on the dosage, it can be used for routine or thorough cleaning. Thanks to its properties of removing cement and gypsum, it can be used for cleaning areas after renovations.

**Application:**
Recommended for stainless steel surfaces, floor and wall tiles and sanitary porcelain.

| KTM | | | | pH ~1 |
|---|---|---|---|---|
| 77-696 | 1 L | 6 | 456 | |
| 77-697 | 5 L | 1 | 96 | |

# DHS Forte

### Heavy duty floor cleaner

A cleaning fluid based on natural extracts from citrus fruits. It evaporates quickly. Leaves no streaks. Suitable for both machine and manual cleaning. Leaves a long-lasting citrus scent.

**Application:**
For cleaning stubborn stains from all washable surfaces (hardened concrete, ceramics and PVC). Particularly suitable for cleaning tough stains, especially rubber marks from floors. Excellent for removing traces of forklifts from all types of surfaces in industrial production facilities or shoe marks in sports halls.

| KTM | | | |
|---|---|---|---|
| 77-004 | 5 L | 1 | 114 |

# Anti-Oil

### Oily floors and cobblestone cleaner

Low-foaming, highly concentrated preparation with excellent grease and oil emulsifying properties. The product penetrates under the dirt, quickly and effectively dissolving it. Designed for cleaning cobblestones with hot water high-pressure washers, from oil-based stains such as greases, oils, tar substances, operational dirt, fuels, etc. It works perfectly for cleaning heavily oiled industrial floors in production halls, repair shops, gas stations, transport bases, parking lots, or car workshops.

**Application:**
For daily and thorough cleaning of surfaces resistant to water and alkaline agents.

| KTM | | | | pH ~13 |
|---|---|---|---|---|
| 77-011 | 1 L | 6 | 456 | |
| 77-010 | 5 L | 1 | 96 | |

# Anti-Static

### Antistatic surface cleaner

Professional cleaning agent designed for both manual and machine washing of surfaces with anti-static effect. It is perfect for cleaning floors and other surfaces prone to electrostatic discharge (e.g., server rooms). It has very good wetting properties and is safe for cleaned surfaces. It evaporates quickly, leaving no streaks or stains. The product does not leave residue on the cleaned surface and has a pleasant, fresh scent. The conductive surface after using the Clinex Anti-Static preparation meets the requirements of standard CEI-IEC 61340-5-1:2017 regarding static electricity.

**Application:**
Recommended for all waterproof surfaces.

| KTM | | | | pH ~11 |
|---|---|---|---|---|
| 77-907 | 1 L | 6 | 456 | |
| 77-908 | 5 L | 1 | 96 | |

# M9 Strong

### Heavy duty floor cleaner

Highly alkaline, concentrated preparation with excellent cleaning properties designed for cleaning heavily soiled surfaces. Low-foaming and odourless, suitable for both manual and machine cleaning.

**Application:**
For thorough cleaning of washable surfaces resistant to alkaline agents. It removes stubborn dirt and accumulated residues of cleaning agents on floors in workshops, factory halls and other industrial facilities.

| KTM | | | | pH ~13 |
|---|---|---|---|---|
| 77-385 | 1 L | 6 | 456 | |
| 77-097 | 5 L | 1 | 96 | |
| 77-098 | 10 L | 1 | 40 | |

# SportHall

### Cleaning liquid for sport floors with non-slip effect

A cleaning and caring preparation designed for both manual and machine washing with anti-slip effect. It has very good wetting properties and is safe for cleaned surfaces. It evaporates quickly, leaving no streaks or stains. The product does not leave residue on the cleaned surface and has a pleasant, fresh scent.

**Application:**
Recommended for sports floors such as PVC, linoleum, lacquered parquet, etc.

| KTM | | | | pH ~9 |
|---|---|---|---|---|
| 77-074 | 5 L | 1 | 96 | |
| 77-075 | 10 L | 1 | 40 | |

# 4Hall

### Clean and care in large format facilities

Concentrated low-foaming liquid designed for maintaining cleanliness and care of all waterproof floors. Effectively removes stubborn, even hard-to-clean dirt. It creates a delicate polymer coating that protects against re-soiling and facilitates ongoing maintenance.

**Application:**
For cleaning and caring for all types of floors. Very efficient product that will work perfectly in large-area facilities such as supermarkets, train stations, airports, sports halls, warehouses and production facilities.

| KTM | | | | pH ~8 |
|---|---|---|---|---|
| 77-659 | 5 L | 1 | 96 | |
| 77-660 | 10 L | 1 | 40 | |

# Campaign

## #ClinexCleansPoland

In response to environmental needs, the Clinex brand is joining forces with **Planet Heroes**, an innovative platform supported by the UN and a Polish organizer of the global initiative World Cleanup Day.

Clinex has joined the ranks of platform partners alongside companies such as Tefal, Brita and McDonald's.

Thanks to the collaboration, the **#ClinexCleansPoland** campaign is being implemented, encouraging the cleaning of areas and promoting sustainable development. Participants, by documenting their actions, can receive financial support for every bag of garbage collected.

This initiative not only emphasizes Clinex's commitment to environmental protection but also allows Planet Heroes users to publish and promote their own ecological activities, thus supporting the cleanliness of Polish forests and the local environment. Join us! Together, we are changing Poland for the better.

planetheroes.pl

# Floor
## protection

The offer includes polymer-based products intended for the protection of floors against scratches and damage. These products also have anti-slip properties, which increase the safety of their users. Dispersion Clinex products guarantee perfect shine and full protection of floors.

information & application

| | INFORMATION | | | | APPLICATION | | | | |
|---|---|---|---|---|---|---|---|---|---|
| | pH | Acrylic polymer | Acrylic polymer and polyurethane | Solid substance content | Concrete stone | Terrazzo | Linoleum, tiles | PVC flooring | Porous marble and granite inside the building |
| Dispersion Hard | 9 | | ■ | ~25% | ✓ | ✓ | ✓ | ✓ | ✓ |

| Dispersion Stripper | 11,5 | | | | ✓ | ✓ | ✓ | ✓ | ✓ |
| Dispersion Care | 7,5 | | | | ✓ | ✓ | ✓ | ✓ | ✓ |

# Dispersion Hard

**Hard, glossy, floor protective polimer dispersion**

Floor polish based on acrylic and polyurethane polymers with shining properties. It forms a durable, urethane-reinforced coating that protects floors from dirt penetration and scratches. It performs excellently in high-traffic areas. It also possesses anti-slip properties. Successive polishing of surfaces covered with the product using high-speed machines enhances the shine, removes scratches and traces formed during use. The solid substance content is approximately 25%. It meets the ASTM D-2047-04 standards for static coefficient of friction.

**Application:**
For waterproof, thoroughly cleaned surfaces such as vinyl, terrazzo, concrete, PVC flooring. The product is intended solely for uniform surfaces.

| KTM | | | | | |
|---|---|---|---|---|---|
| 77-671 | 1 L | 6 | 456 | | pH ~9 |
| 77-672 | 5 L | 1 | 96 | | |

# Dispersion Soft

**Satin, mid-hard floor protective polymer dispersion**

A protective solution for floors based on acrylic polymers, providing high durability and a delicate sheen. It possesses anti-slip properties. Successive polishing of surfaces covered with the product using high-speed machines enhances the shine, removes scratches and traces formed during the use of the surface. The solid content percentage is approximately 20%.

**Application:**
The product is intended exclusively for uniform surfaces. For waterproof, thoroughly cleaned surfaces such as vinyl, terrazzo, concrete and PVC coverings.

| KTM | | | | | | pH ~9 |
|---|---|---|---|---|---|---|
| 77-673 | 1 L | 6 | 456 | | | |
| 77-674 | 5 L | 1 | 96 | | | |

# Dispersion Stripper

**Floor protective polymer dispersion remover**

A low-foaming product with very high cleaning power. It effectively removes layered polymer coatings resulting from prolonged maintenance, which could not be completely or partially removed by regular thorough cleaning agents.

**Application:**
Intended for removing polymers from all water and alkali-resistant surfaces such as vinyl, terrazzo, PVC flooring.

| KTM | | | | | | pH ~11,5 |
|---|---|---|---|---|---|---|
| 77-679 | 5 L | 1 | 96 | | | |

# Dispersion Care

**Polymer-coated surfaces cleaner**

Concentrated, low-foaming detergent for daily cleaning of hard, waterproof floors. The liquid has antistatic properties and effectively removes dirt from cleaned surfaces. It leaves a long-lasting, pleasant fragrance and can be used for both manual and machine cleaning.

**Application:**
For cleaning various types of floors protected with a polymer. Excellent for cleaning hard, vinyl, rubber, concrete surfaces and all surfaces not resistant to acidic or alkaline agents.

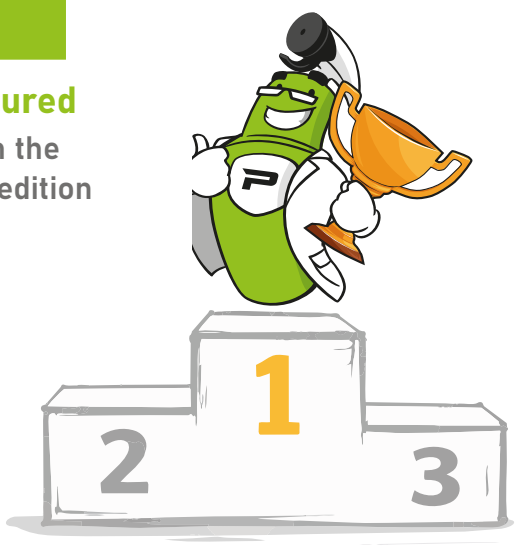

| KTM | | | | | | pH ~7,5 |

# Nano Protect Odour Killer

**Odour neutraliser**

A modern formula designed to neutralize unpleasant odours, based on an alcohol formula. It contains active silver nanoparticles, which, together with other ingredients, give the product a unique ability to eliminate unpleasant kitchen, sanitary, tobacco smoke, car exhaust, sweat, rotten, animal (dog, cat, horse) and plant odours. It completely removes not only the effects but above all the causes of their formation. It does not leave stains. Available in two fragrance versions.

**Application:**
Neutralization of unpleasant odours.

| | KTM | | | |
|---|---|---|---|---|
| Fresh | 77-348 | 1 L | 6 | 456 |
| Green Tea | 77-351 | 1 L | 6 | 456 |

# Eko+ Protect Odour Killer

**Odour neutraliser**

An innovative ecological product for neutralizing unpleasant odours based on biosurfactants. It does not contain alcohol. It is safe for the user and all surfaces. It has very strong neutralizing properties, so it can handle even very strong unpleasant kitchen odours, industrial odours, in restrooms, tobacco smoke odour, car exhaust fumes, sweat and unpleasant animal odours. It completely removes not only the effects but above all the causes of their formation and more effectively slows down the speed of their reappearance.

**Application:**
Odour neutralisation agent.

| | KTM | | | |
|---|---|---|---|---|
| Cotton | 77-349 | 1 L | 6 | 456 |
| Spring | 77-350 | 1 L | 6 | 456 |

# A/C

**Air-conditioning cleaning fluid**

Reliable air conditioning and industrial ventilation cleaning fluid for removing accumulated dust and dirt.

**Application:**
For cleaning industrial air conditioning and ventilation systems.

| KTM | | | |
|---|---|---|---|

# Textile Foam

NEW FORMULA

### Carpet and upholstery cleaning foam

Ready-to-use foam for cleaning upholstery. It does not contain bleaches or optical brighteners, making it safe for fibers. It protects surfaces from dirt, preventing it from penetrating the structure of the material. It refreshes color and leaves a pleasant fragrance. The probiotic-based formula supports the surface microflora, limits the growth of harmful microorganisms, and prolongs the cleanliness effect. Regular use strengthens the biological barrier of fabrics and helps maintain hygiene without the need for harsh chemicals. Polymers reduce re-soiling, while wetting agents facilitate dirt removal. Antistatic ingredients help prevent dust from settling.

**Application:**
For cleaning upholstery.

| KTM | | | | | | |
|---|---|---|---|---|---|---|
| 77-614 | 1 L | 6 | 456 | | | pH ~8 |

# Textile EXT

### Extraction cleaner for carpets and upholstery

Professional, concentrated agent for extraction cleaning. It ensures excellent cleaning results, removing dirt and stains from deeper layers of fabric. It possesses cleaning and degreasing properties while preventing the re-deposition of dirt. It nurtures and revives the colour of cleaned textiles. It performs exceptionally well even in cold and hard water. Designed for machine washing using washing machines and vacuum cleaners.

**Application:**
For extraction cleaning of carpets, rugs, upholstery and upholstery linings using vacuum cleaners, washing machines, or manual washing.

| KTM | | | | | | |
|---|---|---|---|---|---|---|
| 77-190 | 1 L | 6 | 456 | | | pH ~12 |
| 77-191 | 5 L | 1 | 96 | | | |

# Textile SHP

### Carpet and upholstery cleaning shampoo

High foaming, professional shampoo for carpets, rugs and upholstery. The product creates active foam that effectively separates dirt particles from the surface being cleaned, making it easier to collect them completely with a vacuum cleaner. It contains a polymer that protects fibers from re-soiling, facilitating the process of subsequent cleaning. The product does not leave stains on the cleaned surface. It contains antistatic substances. It gives softness, fluffiness and a pleasant odour to the cleaned textiles.

**Application:**
For manual washing of carpet fibers and upholstery fabrics using shampooing with a brush or sponge, as well as mechanical washing using single-disc machines, scrubbers capable of vacuuming foam.

| KTM | | | | | | |
|---|---|---|---|---|---|---|
| 77-184 | 1 L | 6 | 456 | | | pH ~8 |
| 77-185 | 5 L | 1 | 96 | | | |

# Uni Gel

### Universal dual-purpose fabric washing gel

A professional gel for washing white and coloured fabrics. Suitable for using in all types of washing machines as well as for hand washing. It contains stain-removing and fabric-softening substances. Thanks to its innovative formula, it prevents fabrics from greying, delaying the aging process. Effective even at low temperatures. Provides a feeling of freshness and cleanliness.

**Application:**
Universal gel for washing white and coloured fabrics.

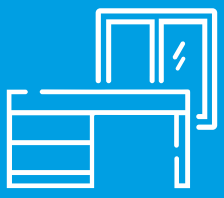

| KTM | | | | | | | |

# MultiSpray

NEW FORMULA

**Universal cleaning spray**

Safe for all types of surfaces, including delicate ones – it does not cause damage or dulling. Effectively removes dust and dirt without leaving streaks. Perfect for both matte and glossy surfaces. Leaves a pleasant, fresh fragrance. Thanks to its anti-fingerprint properties, it reduces the tendency of surfaces to show fingerprints, ensuring a longer-lasting aesthetic effect. The product is enriched with active probiotics that support the development of natural microflora on cleaned surfaces and help maintain hygienic cleanliness for longer. Probiotics aid in eliminating unwanted microorganisms and limiting the growth of harmful bacteria, contributing to a healthier living and working environment.

**Application:**
Recommended for cleaning all types of waterproof surfaces such as furniture, countertops, window sills, tables, walls, window frames, kitchen and office equipment housings.

| | KTM | | | | pH ~7,5 |

# Blink

**Universal cleaning liquid intended for water-resistant surfaces**

A highly foaming, universal cleaning agent for all washable surfaces resistant to water. Thanks to its high alcohol content, it evaporates quickly and leaves no streaks or water spots. It gives the cleaned surface a delicate, satin sheen, ensuring gentle yet effective action. Leaves a pleasant scent.

**Application:**
For daily care of glass, porous plastics, PVC, ceramics, glazed tiles, porcelain floors, marble, etc.

# 4Dirt Foam

FRAGRANCE-FREE FORMULA

**Highly-foaming product for removal of oily stains**

A biodegradable, concentrated solution designed for floor and wall cleaning using foaming and spray methods. Thanks to its active foam, the solution does not run off the surfaces being cleaned, prolonging its contact with the surface and enhancing its cleaning and degreasing action. The product does not contain any fragrance composition, making it suitable for use in areas and on surfaces in contact with food.

**Application:**
For removing all types of tough, greasy stains from surfaces such as concrete floors, PVC, natural and artificial stone, tiles, etc., found in industrial and gastronomic settings.

| KTM | | | | | | pH |
|---|---|---|---|---|---|---|
| 77-646 | 5 L | 1 | 96 | | | ~11 |

# Destoner

**Descaling agent**

A concentrated descaling agent for gastronomic appliances and acid-resistant components. In addition to descaling, it also simultaneously polishes the cleaned surfaces without causing damage.

**Application:**
For removing limescale from gastronomic appliances (kettles, electric heaters, coffee machines, sinks, trays) as well as all nickel-plated, chrome-plated, steel, copper surfaces, etc. The product is also recommended for use in dishwashers as a preventive measure against limescale buildup.

| KTM | | | | | | pH |

## W3 Active Shield

**NEW FRAGRANCE**

CHERRY

**Product with active polymer protection for daily cleaning of sanitary fixtures**

Polymer-based product designed for cleaning and protecting acid-resistant surfaces. The active ingredients effectively remove dirt from cleaned surfaces. It efficiently eliminates rust stains, limescale deposits, greasy dirt, and soap residues. The product leaves a fresh fragrance and provides a subtle shine. The polymers used in the formula delay re-soiling and make subsequent cleaning easier by creating a protective layer on the treated surfaces. It also prevents the formation of dried water spots.

**Application:**
Ready-to-use product for daily cleaning of bathtubs, shower trays, shower cabins (glass, plastic and glazed), bathroom fixtures (enamel-coated), stainless steel elements, toilets, urinals, sinks (ceramic and plastic), tiles, ceramic tiles, etc.

# W3 Bacti

kills 99% of bacteria & fungi

**Acidic agent for disinfection and cleaning**

Liquid with disinfectant properties in terms of bactericidal and fungicidal action. Intended for cleaning surfaces, rooms and sanitary equipment. The product is suitable for use in private and public areas outside the medical field and in industry. It is also recommended for surfaces in contact with food.

**Application:**
For disinfection purposes, apply the agent onto the disinfected surface and leave it for 5 minutes in case of bactericidal effect – product concentration 100% and for 15 minutes in case of fungicidal effect – product concentration 100%. Then, rinse off with water of similar quality to that intended for human consumption. Rooms in which surfaces have been disinfected do not need to be ventilated.

# DEZOClinic

**Cleaning and disinfecting product**

Ready-to-use alcohol-based solution designed for rapid disinfection and cleaning of equipment, surfaces and tools. It exhibits virucidal activity within 60 seconds, as well as bactericidal, fungicidal and mycobactericidal properties in medical settings, nursing homes, hair salons, beauty salons, massage parlors and other places where disinfection is needed.

**Application:**
Disinfection of surfaces and tools with and without contact with food.

| KTM | | | |

# DEZOSept

kills 99% of bacteria & fungi

**Hand disinfection gel**

Alcohol-based hand disinfectant gel, enriched with moisturizing substances, prevents skin dryness, leaves no sticky residue and imparts a coconut milk aroma to disinfected hands. It exhibits bactericidal, fungicidal and virucidal action.

**Method of use:**
Rub in dry hands for 30 seconds, not less than 3 ml of the preparation.

| KTM | | | |
|---|---|---|---|
| 77-018 | 500 ml | 20 | 960 |
| 77-020 | 5 L | 1 | 96 |

# DEZOSept Plus

**Hand disinfection liquid**

Hand hygiene disinfectant liquid. It acts bactericidally, fungicidally and virucidally. It contains glycerin, which prevents the skin from drying out. It leaves no stickiness and disinfected hands smell fresh.

**Method of use:**
Rub in dry hands for 30 seconds, not less than 3 ml of the preparation.

| KTM | | | |
|---|---|---|---|
| 77-026 | 5 L | 1 | 128 |

# DEZOMed

**Cleaning and disinfection product for any surfaces**

Option: Ready-to-use or concentrated, alcohol-free cleaning and disinfectant solution for surfaces and tools. It can be applied for direct disinfection or through immersion. The product exhibits bactericidal, yeast-busting and virucidal properties (including enveloped and non-enveloped viruses) in medical and general areas, hairdressing salons, beauty salons, massage parlors and other places where disinfection is needed.

**Application:**
Disinfection and cleaning of surfaces and tools, whether or not they come into contact with food.

# Dispensers

Preparing working solutions at the correct concentrations is the basis for effective and economical use of our chemical products. Professional dosing equipment for various types of chemical agents in cleaning devices and chemical concentrate dilution systems are used for this purpose. They are used in the food industry, gastronomy, hospitality and in companies providing cleaning services.

## PROFLEX Dispenser

Enables the dilution of up to five chemical products within a single device. Equipped with three dispensing modes: a push button and lever for bottle filling, as well as a spray gun for filling buckets.

The integrated Venturi injector eliminates the risk of chemical backflow contamination and ensures consistent dosing within a pressure range of 1–6 bar. The durable ABS housing provides high resistance to intensive use, while the design allows for tool-free maintenance.

An integrated backflow prevention system compliant with EN 1717 ensures full adherence to required safety standards.

| KTM | Name | System type |
|---|---|---|
| PA-122 | Dispenser PROFLEX | 3LF/1HF |
| PA-123 | Dispenser PROFLEX | 2LF/2HF |

## Peristaltic Pumps

Chemical dosing systems for commercial dishwashers, with separate units for detergent and rinse aid. Designed to support compliance with HACCP procedures while streamlining daily operations. They ensure space efficiency and reliable performance. Output is adjustable via a work/pause trimmer:
- Detergent: from 0.6 to 3 liters/hour
- Rinse aid: from 0.2 to 1 liter/hour

The set includes all components required for installation.

| KTM | Name | System Type |
|---|---|---|
| PA-102 | PERISTALTIC PUMP – DETERGENT PER4 230V AC | 0.6–3 L/h |
| PA-103 | PERISTALTIC PUMP – RINSE AID PER1 230V AC | 0.2–1 L/h |

## ProTwin Dispenser

A multifunctional foaming dosing and cleaning system designed for the food processing and HoReCa sectors. Ideal for cleaning washable surfaces, food transport vehicles, food containers, and large areas. Water-powered and compatible with two types of chemicals (e.g., for cleaning and disinfection), it ensures precise dosing tailored to the specific concentrates used. The set includes a 15 m hose and a foam spray gun. Supports compliance with HACCP procedures, while ensuring space efficiency and reliable performance. Equipped with a backflow prevention system to protect the water supply from chemical contamination.

| KTM | Name | System Type |
|---|---|---|
| PA-108 | PA-108 PROTWIN 2 + 15 m HOSE SPRAY – 2 × 5 L TANK HOLDER (EU) + FOAMING NOZZLE | approx. 10–18 L/min |
