

# SAFETY DATA SHEET

according to Regulation (EC) No 1907/2006 (REACH) as amended

## CLINEX M6

|               |                    |         |     |
|---------------|--------------------|---------|-----|
| Creation date | 30th August 2017   | Version | 7.0 |
| Revision date | 27th February 2026 |         |     |

### SECTION 1: Identification of the substance/mixture and of the company/undertaking

- 1.1. Product identifier**  
Substance / mixture CLINEX M6  
Number mixture  
UFI M-27022026  
T1EH-2H62-810R-UEQ3
- 1.2. Relevant identified uses of the substance or mixture and uses advised against**  
**Mixture's intended use**  
Cleaning agent.  
**Main intended use**  
PC-CLN-13.1 Floor cleaning products  
**Mixture uses advised against**  
The product should not be used in ways other than those referred in Section 1.
- 1.3. Details of the supplier of the safety data sheet**  
**Manufacturer**  
Name or trade name Amtra Sp. z o. o.  
Address Schonów 3, Sosnowiec  
Poland  
Phone +48 32 294 41 00  
Email amtra@amtra.pl  
**Competent person responsible for the safety data sheet**  
Name Amtra Sp. z o. o.  
Email amtra@amtra.pl
- 1.4. Emergency telephone number**  
European emergency number: 112

### SECTION 2: Hazards identification

- 2.1. Classification of the substance or mixture**  
**Classification of the mixture in accordance with Regulation (EC) No 1272/2008**  
The mixture is classified as dangerous.

Eye Dam. 1, H318

#### Most serious adverse effects on human health and the environment

Causes serious eye damage.

- 2.2. Label elements**  
**Hazard pictogram**

#### Signal word

Danger

#### Hazardous substances

tetrasodium ethylene diamine tetraacetate  
C6 Alkyl glucoside

#### Hazard statements

H318 Causes serious eye damage.

#### Precautionary statements

P280 Wear protective gloves/protective clothing/eye protection/face protection.  
P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.  
P310 Immediately call a POISON CENTER/doctor.

#### Supplemental information

EUH208 Contains Triisobutyl phosphate. May produce an allergic reaction.

# SAFETY DATA SHEET

according to Regulation (EC) No 1907/2006 (REACH) as amended

## CLINEX M6

Creation date 30th August 2017 Version 7.0  
Revision date 27th February 2026

<5 % anionic surfactants, <5 % non-ionic surfactants, <5 % EDTA and salts thereof, perfumes, 2-BROMO-2-NITROPROPANE-1,3-DIOL, METHYLCHLOROISOTHIAZOLINONE, METHYLISOTHIAZOLINONE

### 2.3. Other hazards

The mixture does not contain substances with endocrine disrupting properties in accordance with the criteria set out in Commission Delegated Regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605. Mixture does not contain any substance meet the criteria for PBT or vPvB in accordance with Annex XIII of Regulation (EC) No. 1907/2006 (REACH) as amended. Does not contain any PMT or vPvM components.

## SECTION 3: Composition/information on ingredients

### 3.2. Mixtures

**Mixture contains these hazardous substances and substances with the highest permissible concentration in the working environment**

| Identification numbers                                                       | Substance name                            | Content in % weight | Classification according to Regulation (EC) No 1272/2008                        | Note |

Full text of all classifications and hazard statements is given in the section 16.

## SECTION 4: First aid measures

### 4.1. Description of first aid measures

Take care of your own safety. If any health problems are manifested or if in doubt, inform a doctor and show him information from this safety data sheet. If unconscious, put the person in the stabilized (recovery) position on his side with his head slightly bent backwards and make sure that airways are free; never induce vomiting. If the person vomits by himself, make sure that the vomit is not inhaled. In life threatening conditions first of all provide resuscitation of the affected person and ensure medical assistance. Respiratory arrest - provide artificial respiration immediately. Cardiac arrest - provide indirect cardiac massage immediately.

#### If inhaled

Terminate the exposure immediately; move the affected person to fresh air.

#### If on skin

Remove contaminated clothes. Wash the affected area with plenty of water, lukewarm if possible. Soap, soap solution or shampoo should be used if there is no skin injury. Provide medical treatment if skin irritation persists.

#### If in eyes

Rinse eyes immediately with a flow of running water, open the eyelids (also using force if needed); remove contact lenses immediately if worn by the affected person. No neutralization should be performed in any case! Rinsing should be continued for 10-30 minutes from the inner to the outer eye corner to make sure that the other eye is not involved. Depending on the situation, call medical rescue service or ensure medical treatment as promptly as possible. Everyone must be referred for treatment even if affected only a little.

#### If swallowed

DO NOT INDUCE VOMITING - even the induced vomiting can cause complications as in case of detergents and other foaming substances.

# SAFETY DATA SHEET

according to Regulation (EC) No 1907/2006 (REACH) as amended

## CLINEX M6

|               |                    |         |     |
|---------------|--------------------|---------|-----|
| Creation date | 30th August 2017   | Version | 7.0 |
| Revision date | 27th February 2026 |         |     |

### 4.2. Most important symptoms and effects, both acute and delayed

#### If inhaled

Inhaling vapours can cause corrosion of the breathing system.

#### If on skin

Not expected.

#### If in eyes

Causes serious eye damage.

#### If swallowed

Corrosion of the digestion system can occur.

### 4.3. Indication of any immediate medical attention and special treatment needed

Symptomatic treatment.

## SECTION 5: Firefighting measures

### 5.1. Extinguishing media

#### Suitable extinguishing media

Alcohol-resistant foam, carbon dioxide, powder, water spray jet, water mist.

#### Unsuitable extinguishing media

Water - full jet.

### 5.2. Special hazards arising from the substance or mixture

In the event of fire, carbon monoxide, carbon dioxide and other toxic gases may arise. Inhalation of hazardous degradation (pyrolysis) products may cause serious health damage.

### 5.3. Advice for firefighters

Self-Contained Breathing Apparatus (SCBA) with a chemical protection suit only where personal (close) contact is likely. Use a self-contained breathing apparatus and full-body protective clothing. Do not allow run-off of contaminated fire extinguishing material to enter drains or surface and ground water.

## SECTION 6: Accidental release measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment for work. Follow the instructions in the Sections 7 and 8. Prevent contact with skin and eyes.

### 6.2. Environmental precautions

Prevent contamination of the soil and entering surface or ground water.

### 6.3. Methods and material for containment and cleaning up

Spilled product should be covered with suitable (non-flammable) absorbing material (sand, diatomaceous earth, earth and other suitable absorption materials); to be contained in well closed containers and removed as per the Section 13. In the event of leakage of the substantial amount of the product, inform fire brigade and other competent bodies. After removal of the product, wash the contaminated site with plenty of water. Do not use solvents.

### 6.4. Reference to other sections

See the Section 7, 8 and 13.

## SECTION 7: Handling and storage

### 7.1. Precautions for safe handling

Prevent formation of gases and vapours in concentrations exceeding the occupational exposure limits. Prevent contact with skin and eyes. Use personal protective equipment as per Section 8. Observe valid legal regulations on safety and health protection.

### 7.2. Conditions for safe storage, including any incompatibilities

Protect against frost. Recommended storage temperature is from +5 °C to +30 °C. Protect from sunlight. Store in tightly closed containers in cold, dry and well ventilated areas designated for this purpose.

### 7.3. Specific end use(s)

not available

## SECTION 8: Exposure controls/personal protection

### 8.1. Control parameters

The mixture contains substances for which occupational exposure limits are set.

# SAFETY DATA SHEET

according to Regulation (EC) No 1907/2006 (REACH) as amended

## CLINEX M6

Creation date 30th August 2017 Version 7.0  
Revision date 27th February 2026

### 8.2. Exposure controls

Follow the usual measures intended for health protection at work and especially for good ventilation. This can be achieved only by local suction or efficient general ventilation. Do not eat, drink and smoke during work. Wash your hands thoroughly with water and soap after work and before breaks for a meal and rest.

#### Eye/face protection

Protective goggles or face shield (based on the nature of the work performed).

#### Skin protection

Hand protection: Protective gloves resistant to the product. When selecting gloves, consider the properties of the product and the duration of exposure. Replace gloves at the first signs of wear or damage. Other protection: protective workwear. Contaminated skin should be washed thoroughly.

| Glove material     | Thickness | Breakthrough time | Class |
|--------------------|-----------|-------------------|-------|
| Butyl rubber (IIR) | ≥ 0.3 mm  | >30 min           | 2     |

#### Respiratory protection

Halfmask with a filter against organic vapours or a self-contained breathing apparatus as appropriate if exposure limit values of substances are exceeded or in a poorly ventilated environment.

#### Thermal hazard

Data not available.

#### Environmental exposure controls

Observe usual measures for protection of the environment, see Section 6.2.

## SECTION 9: Physical and chemical properties

### 9.1. Information on basic physical and chemical properties

|                                                          |                        |
|----------------------------------------------------------|------------------------|
| Physical state                                           | liquid                 |
| Colour                                                   | green                  |
| Odour                                                    | characteristic         |
| Melting point/freezing point                             | not determined         |
| Boiling point or initial boiling point and boiling range | not determined         |
| Flammability                                             | not determined         |
| Lower and upper explosion limit                          | not determined         |
| Flash point                                              | not determined         |
| Auto-ignition temperature                                | not determined         |
| Decomposition temperature                                | not determined         |
| pH                                                       | 9 (undiluted)          |
| Kinematic viscosity                                      | not determined         |
| Solubility in water                                      | soluble                |
| Partition coefficient n-octanol/water (log value)        | not determined         |
| Vapour pressure                                          | not determined         |
| Density and/or relative density                          |                        |
| Density                                                  | 1.01 g/cm <sup>3</sup> |
| Relative vapour density                                  | not determined         |

# SAFETY DATA SHEET

according to Regulation (EC) No 1907/2006 (REACH) as amended

## CLINEX M6

Creation date 30th August 2017 Version 7.0  
Revision date 27th February 2026

Particle characteristics not determined

### 9.2. Other information

none

## SECTION 10: Stability and reactivity

### 10.1. Reactivity

not available

### 10.2. Chemical stability

The product is stable under normal conditions.

### 10.3. Possibility of hazardous reactions

Unknown.

### 10.4. Conditions to avoid

The product is stable and no degradation occurs under normal use. Protect against flames, sparks, overheating and against frost.

### 10.5. Incompatible materials

Protect against strong acids, bases and oxidizing agents.

### 10.6. Hazardous decomposition products

Not developed under normal uses. Dangerous outcomes such as carbon monoxide and carbon dioxide are formed at high temperature and in fire.

## SECTION 11: Toxicological information

### 11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008

Hazardous substances in concentrations exceeding exposure limits may cause acute inhalation poisoning, depending on the concentration and duration of exposure. No toxicological data is available for the mixture.

#### Acute toxicity

Based on the available data, the criteria for classification of the mixture are not met. Data for the components of the mixture are not available.

| CLINEX M6              |           |             |               |         |     |                      |
|------------------------|-----------|-------------|---------------|---------|-----|----------------------|
| Route of exposure      | Parameter | Value       | Exposure time | Species | Sex | Value determination  |
| Oral                   | ATE       | 25510 mg/kg |               |         |     | Calculation of value |
| Inhalation (dust/mist) | ATE       | 76.53 mg/l  |               |         |     | Calculation of value |

#### Skin corrosion/irritation

No data are available for either the mixture or the components. Based on the available data, the criteria for classification of the mixture are not met.

#### Serious eye damage/irritation

Causes serious eye damage. Data for the components of the mixture are not available.

#### Respiratory or skin sensitisation

No data are available for either the mixture or the components. Based on the available data, the criteria for classification of the mixture are not met.

#### Germ cell mutagenicity

No data are available for either the mixture or the components. Based on the available data, the criteria for classification of the mixture are not met.

#### Carcinogenicity

No data are available for either the mixture or the components. Based on the available data, the criteria for classification of the mixture are not met.

# SAFETY DATA SHEET

according to Regulation (EC) No 1907/2006 (REACH) as amended

## CLINEX M6

|               |                    |         |     |
|---------------|--------------------|---------|-----|
| Creation date | 30th August 2017   | Version | 7.0 |
| Revision date | 27th February 2026 |         |     |

### Reproductive toxicity

No data are available for either the mixture or the components. Based on the available data, the criteria for classification of the mixture are not met.

### Toxicity for specific target organ - single exposure

No data are available for either the mixture or the components. Based on the available data, the criteria for classification of the mixture are not met.

### Toxicity for specific target organ - repeated exposure

No data are available for either the mixture or the components. Based on the available data, the criteria for classification of the mixture are not met.

### Aspiration hazard

No data are available for either the mixture or the components. Based on the available data, the criteria for classification of the mixture are not met.

## 11.2. Information on other hazards

### Endocrine disrupting properties

Based on the available data, the criteria for classification of the mixture are not met. Does not contain any components that may cause endocrine disruption for humans.

### Other information

not available

## SECTION 12: Ecological information

### 12.1. Toxicity

No data are available for either the mixture or the components. Based on the available data, the criteria for classification of the mixture are not met.

### 12.2. Persistence and degradability

No data are available for either the mixture or the components. The mixture is biodegradable.

### 12.3. Bioaccumulative potential

No data are available for either the mixture or the components.

### 12.4. Mobility in soil

Based on the available data, the criteria for classification of the mixture are not met. Does not contain any PMT or vPvM components.

### 12.5. Results of PBT and vPvB assessment

Based on the available data, the criteria for classification of the mixture are not met. Does not contain any PBT or vPvB components.

### 12.6. Endocrine disrupting properties

Based on the available data, the criteria for classification of the mixture are not met. Does not contain any components that may cause endocrine disruption in the environment.

### 12.7. Other adverse effects

Data not available.

## SECTION 13: Disposal considerations

### 13.1. Waste treatment methods

Hazard of environmental contamination; dispose of the waste in accordance with the local and/or national regulations. Any unused product and contaminated packaging should be put in labelled containers for waste collection and submitted for disposal to a person authorised for waste removal (a specialized company) that is entitled for such activity. Do not empty unused product in drainage systems. The product must not be disposed of with municipal waste. Perfectly cleaned containers can be submitted for recycling.

### Waste management legislation

Directive 2008/98/EC of the European Parliament and of the Council of 19 November 2008 on waste, as amended. Decision 2000/532/EC establishing a list of wastes, as amended.

### SECTION 14: Transport information

- 14.1. UN number or ID number**  
not subject to transport regulations
- 14.2. UN proper shipping name**  
not relevant
- 14.3. Transport hazard class(es)**  
not relevant
- 14.4. Packing group**  
not relevant
- 14.5. Environmental hazards**  
not relevant
- 14.6. Special precautions for user**  
Reference in the Sections 4 to 8.
- 14.7. Maritime transport in bulk according to IMO instruments**  
not relevant

### SECTION 15: Regulatory information

- 15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture**  
Regulation (EC) No. 1907/2006 of the European Parliament and of the Council of 18th December 2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH), establishing the European Chemicals Agency, amending Directive 1999/45/EC and repealing Council Regulation (EEC) No. 793/93 and Commission Regulation (EC) No. 1488/94 as well as Council Directive 76/769/EEC and Commission Directives 91/155/EEC, 93/67/EEC, 93/105/EC and 2000/21/EC, as amended. REGULATION (EC) No. 1272/2008 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL as amended. REGULATION (EC) No 648/2004 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 31 March 2004 on detergents, as amended. Commission Regulation (EU) 2020/878 of 18 June 2020 amending Annex II to Regulation (EC) No 1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH).
- 15.2. Chemical safety assessment**  
A chemical safety assessment has not been carried out.

### SECTION 16: Other information

#### A list of standard risk phrases used in the safety data sheet

|        |                                                                    |
|--------|--------------------------------------------------------------------|
| EUH208 | Contains Triisobutyl phosphate. May produce an allergic reaction.  |
| H225   | Highly flammable liquid and vapour.                                |
| H302   | Harmful if swallowed.                                              |
| H317   | May cause an allergic skin reaction.                               |
| H318   | Causes serious eye damage.                                         |
| H319   | Causes serious eye irritation.                                     |
| H332   | Harmful if inhaled.                                                |
| H373   | May cause damage to organs through prolonged or repeated exposure. |

#### Guidelines for safe handling used in the safety data sheet

|                |                                                                                                                                  |
|----------------|----------------------------------------------------------------------------------------------------------------------------------|
| P280           | Wear protective gloves/protective clothing/eye protection/face protection.                                                       |
| P305+P351+P338 | IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. |
| P310           | Immediately call a POISON CENTER/doctor.                                                                                         |

#### Other important information about human health protection

The product must not be - unless specifically approved by the manufacturer/importer - used for purposes other than as per the Section 1. The user is responsible for adherence to all related health protection regulations.

#### Key to abbreviations and acronyms used in the safety data sheet

|            |                                                                            |
|------------|----------------------------------------------------------------------------|
| Acute Tox. | Acute toxicity                                                             |
| ADR        | Agreement concerning the international carriage of dangerous goods by road |
| ATE        | Acute toxicity estimate                                                    |
| BCF        | Bioconcentration Factor                                                    |
| CAS        | Chemical Abstracts Service                                                 |

# SAFETY DATA SHEET

according to Regulation (EC) No 1907/2006 (REACH) as amended

## CLINEX M6

|               |                    |         |     |
|---------------|--------------------|---------|-----|
| Creation date | 30th August 2017   | Version | 7.0 |
| Revision date | 27th February 2026 |         |     |

|            |                                                                                                   |
|------------|---------------------------------------------------------------------------------------------------|
| CLP        | Regulation (EC) No 1272/2008 on classification, labelling and packaging of substance and mixtures |
| EC         | Identification code for each substance listed in EINECS                                           |
| EINECS     | European Inventory of Existing Commercial Chemical Substances                                     |
| EmS        | Emergency Response Procedures for Ships Carrying Dangerous Goods                                  |
| EU         | European Union                                                                                    |
| EuPCS      | European Product Categorisation System                                                            |
| Eye Dam.   | Serious eye damage                                                                                |
| Eye Irrit. | Eye irritation                                                                                    |
| Flam. Liq. | Flammable liquid                                                                                  |
| IATA       | International Air Transport Association                                                           |
| IBC        | International Code For The Construction And Equipment of Ships Carrying Dangerous Chemicals       |
| ICAO       | International Civil Aviation Organization                                                         |
| IMDG       | International Maritime Dangerous Goods                                                            |
| IMO        | International Maritime Organization                                                               |
| INCI       | International Nomenclature of Cosmetic Ingredients                                                |
| ISO        | International Organization for Standardization                                                    |
| IUPAC      | International Union of Pure and Applied Chemistry                                                 |
| log Kow    | Octanol-water partition coefficient                                                               |
| OEL        | Occupational Exposure Limits                                                                      |
| PBT        | Persistent, bioaccumulative and toxic                                                             |
| PMT        | Persistent, mobile and toxic                                                                      |
| ppm        | Parts per million                                                                                 |
| REACH      | Registration, Evaluation, Authorisation and Restriction of Chemicals                              |
| RID        | Regulation concerning the International Carriage of Dangerous Goods by Rail                       |
| Skin Sens. | Skin sensitization                                                                                |
| STOT RE    | Specific target organ toxicity - repeated exposure                                                |
| UN number  | Four-figure identification number of the substance or article taken from the UN Model Regulations |
| UVCB       | Substances of unknown or variable composition, complex reaction products or biological materials  |
| VOC        | Volatile organic compounds                                                                        |
| vPvB       | Very persistent and very bioaccumulative                                                          |
| vPvM       | Very persistent and very mobile                                                                   |

### Training guidelines

Inform the personnel about the recommended ways of use, mandatory protective equipment, first aid and prohibited ways of handling the product.

### Recommended restrictions of use

not available

### Information about data sources used to compile the Safety Data Sheet

REGULATION (EC) No. 1907/2006 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL (REACH) as amended.  
REGULATION (EC) No. 1272/2008 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL as amended. Data from the manufacturer of the substance / mixture, if available - information from registration dossiers.

### The changes (which information has been added, deleted or modified)

The version 7.0 replaces the SDS version from Tuesday, 11 June 2024. Changes were made in sections 1, 2, 3, 9, 11, 13 and 16.

### More information

Classification procedure - calculation method.

### Statement

The safety data sheet provides information aimed at ensuring safety and health protection at work and environmental protection. The provided information corresponds to the current status of knowledge and experience and complies with valid legal regulations. The information should not be understood as guaranteeing the suitability and usability of the product for a particular application.
